

**DZUM | DB 75 | DB 51**

**Double-leaf garage doors  
and side doors**

*A complete solution  
for your garage.*

# DOOR SYSTEMS FOR THE DEMANDING

Double-leaf garage doors are a solution that can be easily adapted to the garage and integrated with the design of both new houses and renovated buildings. The option ability to manufacture doors to the exact millimeter ensures a perfect fit, even for non-standard projects. Side garage doors are a convenient solution suitable for any building. They provide an additional entrance, eliminating the need to open the garage door.

## DZUM System

### Double-leaf garage doors (DZU 60D) and side doors (DZU 60S)

- » Maximum dimension: 2800 x 2400 mm (DZU 60D), 1200 x 2400 mm (DZU 60S)
- » Filling: insulated 60 mm panels
- » Thermal breaks
- » Single- and double-glazed windows
- » Options: smooth aluminum panel / divided filling
- » Available in threshold-free version

## DB 75 System - for energy-efficient homes

### Single-leaf doors

- » Maximum dimension: 1200 x 2400 mm
- » 60 mm panels
- » Three-chamber profiles with a depth of 77 mm
- » Warm threshold, EPDM seals, thermal breaks
- » Full range of colors and veneers
- » Consistent design with the garage door

## DB 51 System - lightweight, versatile design

### Single-leaf doors

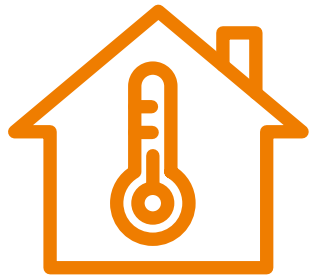

- » Maximum dimension: 1200 x 2400 mm
- » Profiles with a depth of 51 mm
- » Filling: 40 mm sectional door panel or rolled profiles
- » Double-sided coating, full color range

# Why choose KRISPOL?

## Consistent design of doors and gates

- ✓ Door and gate embossing at the same height
- ✓ Matching color of leaves and frame
- ✓ Horizontal or vertical panel layout
- ✓ Over 200 RAL colors and veneer options

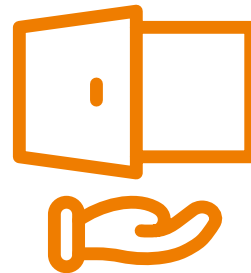

## Top-level thermal insulation

- ✓ Panels up to 60 mm
- ✓ Warm threshold and modern aluminum profiles with thermal breaks
- ✓ Perfect for low-energy homes

## Comfort and functionality

- ✓ Side doors provide quick access to the garage
- ✓ Ideal for garages serving as workshops, bicycle storage, tool rooms, etc.
- ✓ No need to open the entire gate
- ✓ Doesn't need access to electricity – a perfect solution for garages without electrical installations

### EXTERIOR FINISHES:

- Over 200 RAL colors
- Dozens of decorative veneers – wood-effect and metallic
- Bicolor option – different colors inside and outside
- Different types of fillings

We're focused on *garage*  
& *industrial* doors
