

TECHNICAL DATA SHEET

Active Foam

for cleaning laminated surfaces, glass panes, rubber and plastic elements

Packaging:	400ml aerosol container
Colour:	Transparent
Intended use:	Components of garage and industrial doors made of steel, plastic laminates, rubber and glass.
Applications:	Universal formula intended for cleaning various surfaces, including laminate, glass, rubber and plastic parts. It perfectly and effectively removes road dirt, greasy stains, dust, insects and nicotine tarnish. Clean surface guaranteed. Leaves streak-free finish. The formula of the foam ensures long-term adhesion to the cleaned surface, enhancing the final effect.
Surface preparation:	Before using the foam, remove dust and sand with a cloth.
How to use:	<ol style="list-style-type: none">1. Before use, mix well by shaking the container for about 1-2 minutes.2. Perform a test spray.3. From a distance of 15-20 cm, apply the formula evenly on the dirty surface and wait for about 30-60 seconds.4. Wipe with a micro-fiber cloth or a cleaning rag, a soft sponge or a brush with delicate bristles.5. In the case of heavy contamination, repeat the above steps.
HSE:	For professional use. Before use, read the technical information sheet and information on the packaging. The user must comply with the HSE regulations applicable in a given country.
Storage:	Store the product in a closed container in a dry and ventilated room. Keep away from children and unauthorized persons.

NOTE: Pressurized container: protect from sunlight and avoid exposing to temperatures above 50°C and below -4°C.
